MY WORK

<https://mileristov.netlify.app>

Internship at Kobizo

08 / 2023 - 11 / 2023

<https://kobizo.de>

- During my internship at [Kobizo](#), I was involved in the development of [Particula](#), a digital asset web application built on Vue.js 3 and TypeScript. This hands-on experience allowed me to actively contribute to enhancing the project's functionality and user interface. I was an integral part of the team, participating in daily stand-up meetings to provide progress updates and collaborate with my colleagues to ensure the project's success.

MIKO . Gebäudereinigung

03 / 2023 - Present

<https://miko-gebaudereinigung.de/>

- Built and designed from start to finish a Fully responsive website built using Next.js and Framer Motion. My responsibilities included designing a user-friendly interface, implementing server-side rendering and caching to optimise performance, and integrating various third-party services such as Google My Business and domain name registration,

E-commerce Web App

10 / 2022

<https://crafts-and-candles.vercel.app/>

- Developed a fully Responsive E-commerce store app Using Next.js, Stripe as the Payment Method, Sanity.io for Content Managing and Framer Motion for animations. File-based Routing and State Management of the entire App using React Context API.
- Github code at : <https://github.com/Mileristov/Crafts-and-Candles/>

PROFESSIONAL BACKGROUND

2016 - 2021

Throughout my professional journey, I have gained diverse work experience across various industries. In 2016 I started as a gas station sales assistant where I developed valuable customer service skills. In 2017, I relocated to Germany and worked part-time as a driver, honing my time management and organisational abilities. In 2021, after completing the VHS German language B1 level course, I decided to pursue my passion for programming. Eager to enhance my skills, I enrolled in a full-stack coding bootcamp. This experience helped me in shaping my journey as a web developer. Since completing the bootcamp, I have been actively expanding my knowledge and expertise, with a focus on creating exceptional digital experiences.

EDUCATION

SPICED Academy's Full Stack Coding Bootcamp

01/ 2022
